

For small business development, access to the right information is very encouraging.

If you have ever thought of starting a small business, then you might or have come across one or more but not limited to the below mentioned business related questions:

- What kind of business category do I fall in?
- What kind of licenses and permits do I need?
- Where shall I get the licenses and permits?
- What taxes do I need to pay?

Fortunately, both federal and state governments do provide the knowledge resources through web and workshop seminars. The access information is compiled as follows:

Business Categories and Taxes

First choose the appropriate business for legal and tax filings:

- Sole Proprietorship
- Limited Liability Company (LLC)
- Cooperative
- Corporation
- Partnership
- S Corporation

- Sole
- LLC
- Cooperative
- Corporation
- Partnership
- S Corporation
